Care should be exercised when comparing incidence rates for bladder cancers: for some registries the ICD-10 code C67 may include neoplasms in situ and of uncertain or unknown behaviour together with invasive cancers.

†*Important. See note on population page.

Care should be exercised when comparing incidence rates for bladder cancers: for some registries the ICD-10 code C67 may include neoplasms in situ and of uncertain or unknown behaviour together with invasive cancers.

*Important. See note on population page.

Age-standardized (world) incidence (per 100,000) and cumulative (0-74) incidence (percent) rates and standard errors

Care should be exercised when comparing incidence rates for bladder cancers: for some registries the ICD-10 code C67 may include neoplasms in situ and of uncertain or unknown behaviour together with invasive cancers.

†*Important. See note on population page.

Age-standardized (world) incidence (per 100,000) and cumulative (0-74) incidence (percent) rates and standard errors

Bladder (C67) (contd)

Care should be exercised when comparing incidence rates for bladder cancers: for some registries the ICD-10 code C67 may include neoplasms in situ and of uncertain or unknown behaviour together with invasive cancers.

†*Important. See note on population page.

Age-standardized (world) incidence (per 100,000) and cumulative (0-74) incidence (percent) rates and standard errors

Care should be exercised when comparing incidence data for bladder cancers: for some registries the ICD10 code C67 may include neoplasms in-situ and of uncertain or unknown behaviour together with invasive cancers.

*Important. See note on population page.

Care should be exercised when comparing incidence data for bladder cancers: for some registries the ICD10 code C67 may include neoplasms in-situ and of uncertain or unknown behaviour together with invasive cancers.

†*Important. See note on population page.

Errors in Volume IX

1. It has come to our attention that the data for **USA, New York State: Black** and **USA, New York State: White** are for the non-Hispanic populations only, and therefore cannot be directly compared with the data published in Volume VIII and Volume X.
2. The population estimates provided for **Zimbabwe, Harare** have been found to be inaccurate; as a result, the rates were somewhat underestimated.
